

## DEAL CLOSED FOR BIG CLAY WORKS

Several Square Miles of Clay  
Beds Purchased for Im-  
portant Enterprise.

## SALT LAKE GETS PLANT

EASTERN SYNDICATE OPERAT-  
ING THROUGH LOCAL FIRM.

A deal involving the manufacture and marketing of fire brick, sewer pipe, drain tile, paving brick, fireproofing, clay lumber, roofing of all kinds, and, in fact, every variety of clay product, was closed and announced here yesterday by Stowe & Palmer, real estate agents, acting for a syndicate of eastern capitalists who are now interested in several immense clay manufacturing concerns in the east.

Between two and three square miles of clay beds have either been purchased or options secured on them in the state; plans are now under way for the erection here of a \$200,000 manufacturing plant, and an eighteen-acre site has been secured within the city limits of Salt Lake for the factory—this, in brief, is the deal.

Stowe & Palmer have been at work for months securing options and purchasing outright the clay beds known as the Fairfield beds. The clay they know expert test to determine its quality and variety. The result of these tests more than anything else is what has brought about the successful closing of the deal.

The Salt Lake clay is recognized as one of the finest in the entire west, and this was the original incentive for the investigation of the state's clay beds and for the consummation of the deal.

### Fairfield Bed Included.

The largest and most important bed of clay which the easterners have purchased is a 400-acre tract near Fairfield on the San Juan river. The clay from this tract is plastic clay of the finest kind. Its quality being equal to that of the standard fire brick are made. From the plastic beds of the Fairfield tract can be made according to the report submitted to the easterners by experts last week, as fine fire brick as are manufactured in the United States. For the past few years the two largest brick manufacturing concerns in this section of Utah and one in Salt Lake City have been using clay from the Fairfield beds, and their products have gained a national reputation. These companies have been paying royalties on the clay.

In the past month practically every clay bed in Utah of any size or worth has been tested by the experts employed by the eastern men who will establish the manufacturing plant here. Practically every bed that showed favorably under these tests and was not being worked by competitive companies has been taken up by Stowe & Palmer for their clients, so that the known clay supply of the state which is now owned or under option to the eastern concern.

Big Plant to Be Built.

Stowe & Palmer yesterday stated that they are at liberty to give the location of the plant site that has been secured here for the manufacture. It contains eighteen acres and will give room for an immense establishment, easily housing over 250 men when running to capacity. It is expected work will be started on the plant early next spring.

The easterners are preparing to incorporate with a capitalization of \$500,000. The bond issue will be \$300,000. Several local men have asked for an interest in the company and it is possible that considerable local capital may be represented in the concern before the plant is finished.

The deal is of the greatest importance to Salt Lake, as the money which comes backed with plenty of money and has ready put up a big sum in cash in purchasing clay beds has given the manufacturing companies here a great boost in the past few years and it is stated that the smelters, sugar manufacturing companies and other big concerns have not placed their orders for fire brick and other clay products with Salt Lake concerns simply because the eastern companies have had to be content with a limited output and could not handle the immense orders that usually come from heavy consumers.

## McWhirter Brothers

Many Avail Themselves  
of Their Invitation to  
Visit Their Bakery

General Satisfaction Results.

Hundreds have within the last few days visited McWhirter Brothers' bakery at 52 South Main street, and thoroughly and completely satisfied themselves of its absolute cleanliness. A feature that attracted very favorable comment was the motor-driven new, modern cake-mixing machine which the boys have just installed.

One could not help but be impressed by the order and clean condition of everything in the bakery. Its surroundings and in the high-grade quality of the materials used in the manufacture of their justly-famed cakes, bread and pastry.

We Are Equipped to Meet the Demand.

No matter what your price limit may be, whether you seek the most elaborate Paris creation or the simplest "street" affair in furs, again we invite you to attend our opening Monday, Tuesday and Wednesday of this week.

Meheys, the Furrier, Knutsford.
